

# RUBBER CUSHION GLIDES

24158-166

24158-7/8"

24166-1-1/6"

## FEATURES:

- smooth and easy sliding
- protects your floor surfaces from marring
- made of nylon base with cushioned rubber insert insulation
- the center pin is flexible permitting the base to remain flat on the floor
- points are sharp and driven easily
- to be used on linoleum, vinyl covering or tile and wood floors
- four (4) pieces per set

## APPLICATION:

A sturdy nail on rubber and steel glide that is easily installed and protects the leg, floor and floor coverings.

## SPECIFICATIONS:

Item No.	A	B	C	D
24158	13/16	3/16	1/4	7/8
24166	13/16	3/16	1/4	1-1/16

## INSTALLATION:

1. Layout center of leg for steel point.
2. Drill small pilot hole if desired. (Steel point should be a tight friction fit.)
3. Drive in glide point carefully with plastic face mallet.
