33118-126

FEATURES:

- fixes loose chair rungs or stripped and worn out screw holes
- fast and easy to use
- no need for glue and clamping
- made in USA
- can be used on wooden, metal, cement, aluminum and plastic items

APPLICATIONS:

A thin metal sheet, with sharp teeth on both sides used for repairing loose wood joints and for stripped screw holes.

33126

1. Cut strips with scissors to fit hole.
2. Fit lengthwise into hole. Use one or more as needed.
3. Insert screw and tighten snugly.
4. Screw is held tight. May be unscrewed if needed.

33118 - 8 pcs 1/4" x 4"
33126 - 8 pcs 3/4" x 2"

INSTALLATION:

33118

1. Cut strips with scissors as needed.
2. Place over dowel as shown. Use more than one strip if necessary.
3. Firmly push dowel into place.
