

FEATURES:

- available in a variety of sizes
- requires arbor #90301 (can also be used with discontinued arbor #82412)
- heavy duty
- shatterproof
- bi-metal construction consists of a hardened high speed steel cutting edge welded to a tough alloy steel body
- variable pitch for faster, smoother cutting action on a wide range of materials and thicknesses
- 1-5/8" maximum cutting depth

APPLICATION:

Use these high quality hole saws to cut holes in wood, plastic, aluminum, brass, copper or stainless steel.

SPECIFICATIONS:

| Item # | Dia. (inches) | Dia. (mm) | Cutting Depth |
|--------|---------------|-----------|---------------|
